MAHLE ArcticPRO® Air Conditioning Service Machines

The compact one: ACX 310 (R134a) and ACX 410 (R1234yf)

Weighs just 65kg and is extremely compact: our entry-level unit. With ACX 310 (R134a) and ACX 410 (R1234yf) your workshop can advance to the highest technological level in air conditioning servicing without major investment.

- Fully automatic process: recovery, vacuum and refill
- Patented coupling system with zero gas loss, saving money on gas
- Simple and intuitive, making a perfect second unit or an ideal mobile solution
- Timed automatic oil injection with cleaning function
- Export of reports as PDF files and software updates via USB interface
- Optional agricultural and construction machinery database (ACX 310 only)
- Automatic purging of non-condensing gas (manual release for ACX 310)
- Nitrogen forming gas leak test available (with optional external kit only)
- Oil bottles: 2 (fresh oil, used oil)
- Reservoir capacity: 12L, weight: 65kg

ACX 350 (R134a) and ACX 450 (R1234yf) are the perfect machines for garages wanting an A/C servicing machine with UV test function at a convenient price level.

- Fully automatic process: recovery, vacuum and refill
- Patented coupling system with zero gas loss, saving money on gas
- Convenient, fast, intuitive; meets the highest requirements in A/C servicing
- UV dye injection
- 7" user friendly touchscreen display
- Robust design with one-touch door lift system
- Automatic purging of non-condensing gas
- High visibility LED light indicates machine status
- Active oil protection: hermetically sealed oil containers
- Efficient servicing regardless of vehicle and ambient temperature
- Integrated N-Leak test function (can be activated digitally)
- USB interface, WiFi, Bluetooth for remote diagnostics and software updates
- AC viewer app: remote viewing of the machine display from your smartphone
- Oil bottles: 3 + 1 - fresh oil (PAG), used oil, UV additive + POE oil
- Reservoir capacity: 20L, weight: 74kg

THINKDPF Part No: DPF1000RR DPF CLEANING FLUID

Introducing THINKDPF, the latest German engineered cleaning solution from Thinkcar UK, specifically designed for diesel particulate filters (DPFs) in professional workshops, fleet service centres, and mobile repair operations.

This high-performance cleaning fluid penetrates and dissolves soot and stubborn carbon build-up, restoring optimal flow and reducing backpressure, without the need to remove the DPF from the vehicle.

- Made in Germany – Manufactured to strict European quality standards
- Professional-Grade Cleaning Power – Effectively breaks down compacted DPF deposits
- Spray Gun Compatible – Works with all major DPF cleaning spray systems
- Time-Saving Formula – No dismantling required for on-car cleaning
- Trusted by Professionals – Used by garages, fleet operators, and mobile service engineers
- Emissions Compliance – Helps vehicles meet Euro 6 and other emission regulations

OUR PRICE
£23.95

THINKCAR DPF CLEANING GUN Part No: DPFGUNRR

New from Thinkcar UK, the DPF cleaning gun is designed to clean the DPF without removing it from the vehicle. DPF cleaning Fluid is sprayed directly into the DPF via the pressure sensor or vacuum hole using compressed air. The hose tip contains tiny holes which help 'vaporise' the fluid for maximum cleaning action. Once applied, the fluid starts to break down and remove soot contamination from inside the DPF and restore flow to the system.

If the DPF is severely blocked, a forced re-gen may be required, or replacement of the DPF.

- Use with Thinkcar DPF cleaning fluid
- The fluid can be used in other DPF cleaning guns

THINKTOOL Expert 394 and 399

NEW RELEASE AI, DUAL VEHICLE DIAGNOSTICS

ULTIMATE PRODUCT RANGE

The ThinkTool Expert 394 and 399 put the power of AI right at your fingertips. With built-in Thinkcar AI, these advanced diagnostic tablets make fault-finding quicker, smarter, and easier than ever. The AI automatically scans the whole vehicle, explains fault codes in plain language, and even guides you step-by-step through repairs for many vehicle systems, with coverage improving almost daily as AI gathers information from users. Call your local branch to arrange your AI diagnostic demonstration.

The Expert 394 is a rugged, high-performance tool with a crystal-clear 12" screen, perfect for fast, everyday diagnostics. For workshops that want even more, the Expert 399 takes things further with a larger 14" screen, dual-vehicle diagnostics, and wider coverage for passenger, EV, and heavy-duty vehicles. Whichever you choose, you'll get smarter technology, faster answers, and more efficient repairs, all backed by Thinkcar's cutting-edge AI.

NEW 3 TIER PRODUCT OFFERING: **ULTIMATE - FULL COVERAGE AND PREMIUM FEATURES** | **ADVANCED - EXPANDED FUNCTIONS AND DEEPER DIAGNOSTICS** | **ESSENTIAL - CORE FUNCTIONS EVERY PRO NEEDS**

THINKCAR THT118 TYRE TREAD DEPTH GAUGE

OUR PRICE
£395.00

THT118 is a handheld laser tread inspection tool that accurately measures tyre groove number and depth with 0.1mm precision. It supports full or single-groove modes for fast, precise wear detection. Use it standalone or integrated with inspection equipment to view and print detailed tread reports.

0.1mm measurement accuracy
Full Tread Measurement / Single Groove Measurement
Read single tyre data in 3 seconds

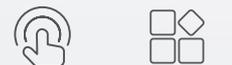

DOT Identification for Tire Warranty and Production Date Identification
One-Click Report Sharing
Terminal Connection

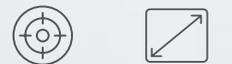

THINKCAR PTC107 PORTABLE HANDHELD THERMAL IMAGING CAMERA

ThinkCar PTC107 is a professional thermal imager, which is portable and widely used in auto maintenance. The PTC107 features high-precision temperature measurement, real-time thermal imaging and intelligent analysis to easily capture temperature anomalies and quickly locate hidden faults.

Portable, Easy to Use
Wide Application

Topdon TC001

The Dark Has No Secrets

TOPDON's TC001 is a portable camera that turns your Android smartphone/tablet or Windows laptop into a powerful thermal imager. Simply download the accompanying app, slot the TC001 in your device's USB-C port, and unleash thermal technology that formally only belonged to special forces.

Perfect for home inspectors, HVAC technicians, electricians, automotive technicians, and even farmers looking to protect crops and livestock.

£215

Topdon TC002

Built For Mobility

The TCView Series turns your smartphone or computer into an infrared thermal camera. With an ultra-high IR camera resolution of 256x192, these devices infrared thermal camera can display a thermal picture of your target with high resolution and clarity, delivering great image quality.

The TCView Series can take continuous measurements of a scene, storing the data and generate a waveform graph.

£190

Topdon TC002C

Designed For IOS Type-C Devices

Introducing TC002C, a specialized thermal imaging camera crafted specifically for iOS Type-C devices like the iPhone 15 & iPhone 16 Series. Offering exceptional precision in temperature detection, insulation inspection, and circuit board analysis, TC002C is your reliable companion for diverse applications. Boasting an impressive resolution of 256x192, it captures thermal imagery with unparalleled clarity and detail.

£240

Topdon TC003

See More Than The Human Eye

The TC003 is a cutting-edge thermal camera that provides high-resolution thermal imaging to a wide audience. With its advanced features, the TC003 delivers high-quality imaging (256x192), exceptional temperature sensitivity (40mk), and unparalleled accuracy (down to 0.1°C). Additionally, the TC003 boasts a 5-inch touch screen, a 5-megapixel visible light camera for overlapping images, and temperature waveform graphing.

£357.50

Topdon TC005

Built to Last

The TC005 is a handheld thermal camera that measures an expansive temperature range. From -20°C to 550°C (-4°F to +1022°F), and offers a 12-hour runtime. The high-resolution 256*192 pixel infrared camera allows you to say goodbye to blurry images. The tool is ready for analysis with the standalone and the PC modes, enabling users to project and upload images from the TC to their PC.

Added benefits include 7 options for Pseudo-Colour Display and a 2-megapixel visible light camera

£350

Topdon TS001

Sharp Focus, Close or Distant

Experience unparalleled clarity from near to far with the TS001, a long-focus Android thermal imager designed to capture sharp images, even for objects as close as PCB boards. With a high-resolution 256x192 pixels infrared sensor and a smooth 25Hz frame rate, every detail is captured with precision. The TS001's adjustable 9mm lens covers distances from 0.32 to 1640 feet (0.1-500m), catering to various applications including building inspections, animal observation, auto repair, and PCB inspection

£275

Topdon TS004

Be Bold, Go Wild

Embark on wild adventures with the TS004, a thermal imaging monocular engineered to reveal the unseen, even in total darkness. It sees through fog and dense vegetation, revealing wildlife, people, and objects with ease.

Tailored for outdoor enthusiasts, farmers, and zoologists alike, the TS004 empowers you to observe wildlife, navigate trails, camp under the stars, or conduct search and rescue missions with confidence.

£382.50

Topdon TS005

Explore Like a Pro

The TS005 is an advanced thermal monocular designed for professionals in wildlife monitoring, search and rescue operations, outdoor adventures, and law enforcement.

Whether in the autumn chill or the depths of winter, this robust device delivers consistent performance, allowing you to focus on your adventure with confidence and immerse yourself in the thrill of discovery.

£1,332.50

5YR LEASE £7.07 PW

Video Scope

Nothing Can Hide From You Now

The Video Scope is a Mobile Phone Bore-Scope. The device has 360° accurate articulation with joystick control, and the maximum bending angle is 210°, which allows users to inspect narrow space and pipelines. With a 1 mega-pixel probe camera and single button to take photos and video, it can transmit vivid, clear and all-round video and images to the mobile phone through the data cable.

Used in auto repair to inspect hard-to-reach areas like evaporators, chambers, and pipelines.

£219

Tornado120000

Essential Battery Stabilisation

The T120A ensures a stable and reliable power supply for prolonged diagnostic sessions and ECU programming tasks. This capability becomes especially crucial when working with luxury vehicles such as BMW and Benz, where the T120A's maximum current of 120A comes into play. Say goodbye to interruptions caused by fluctuating power sources. The T120A delivers voltage and current consistency to keep your operations running smoothly.

£895

Tornado90000

Your Battery's Bodyguard

The Tornado90000 is TOPDON's newest cutting-edge smart charger, made for professional and commercial users. This device is suitable for all types of 12V and 24V lead-acid batteries, with a wide battery capacity range from 5 to 90 amps. The Tornado90000 features a current/voltage edit function and supplies users with the needed protection for batteries through its 9-step smart charging method and 6 charging modes.

£625

V3000

Power Beyond Limits

The V3000 is a high-performance 3000 peak amp jump starter. It's designed to reliably start 12V vehicles, including cars, SUVs, trucks, pickups, and RVs, with up to 9.0L gas and 7.0L diesel engines.

Whether you're a first-time driver, senior motorist, weekend adventurer, or seasoned pro, the V3000 delivers the power, versatility, and reliability you can count on.

£165

V4500 Plus

Road Ready Starts with a Battery Check

Designed for professional and high-displacement vehicles, the TOPDON V4500 Plus delivers a peak current of 4500A, jump-starting semi-trucks, trailers, off-road vehicles, and boats in seconds. With up to 45 jump-starts on a single charge, it's always ready for action. The V4500 Plus also enhances your driving experience with features like battery testing and monitoring via our app, super-fast smartphone charging in 25 minutes, and 500 lumens of light

£207.50

V2200 Air

Instant Ignition, Anywhere You Are

Introducing the V2200Air, the ultimate all-in-one solution for every car owner's emergency needs. This versatile device allows you to jump-start your car, inflate your tyres, charge your devices, and illuminate your surroundings with ease. Stay prepared for any situation and drive with confidence, knowing the V2200Air has you covered. The V2200Air delivers a powerful 2200A peak current, capable of jump-starting vehicles with engines up to 8.0 liters for gasoline or 6.0 liters for diesel in just 2 seconds.

£140

V2200Plus

Boost Dead or Damaged Batteries

The V2200Plus is a 2-in-1 jump pack and battery tester that takes on the unexpected. Offering 35 jumps on a full charge, smart clamps to protect against common safety hazards, and features a 300-lumen LED light. A built-in Bluetooth module supports 12V battery tests by pairing an app with Bluetooth. This provides cranking, and battery test reports to let you replace a battery before it dies. The V2200Plus can even act as a charging brick for small devices.

£115

V1500

Boost your battery into life

TOPDON's V1500 leads the way as a portable jump starter, delivering 1500 peak amps for instant jump-starts. Quickly and safely jump 12V lead-acid batteries in seconds for cars, boats, motorcycles, and trucks with up to 6.5L Petrol or 4.0L Diesel engines. The V1500 doubles as a power bank for phones, tablets, and other devices, and can also supply power to 12V DC devices. Use the V1500's boost function to jump particularly difficult batteries.

£62

BT300P

Precise, Durable, Capable

TOPDON's BT300P is our newest 12V lead-acid vehicle battery tester with a Built-in Printer. It can test 100 to 2000 Cold Cranking Amps (CCA) batteries. It's compatible with Flooded, AGM, GEL, and EFB batteries; and has accredited standards including: CCA, JIS, EN, DIN, SAE and IEC. The BT300P is able to test a battery's actual CCA value, state of health, cranking system, and charging system.

£82.50

BT600

The Next Step for Battery Testing

The BT600 is TOPDON's newest advanced battery tester for 12V vehicles. With a 3.5 inches color screen and a built-in thermal printer, this tool offers the ultimate solution for accurate, fast, and convenient testing. It allows you to easily view the battery's condition and print test reports in real-time. The BT600 adopts a cutting-edge conductivity testing technology and includes reverse polarity protection to prevent improper connections.

- Electric locks
- Price includes Delivery, Installation, Full Training & 2 Year Warranty!

VSX 3500 LP Full-Height Lift

Price only...
£4,595
 5YR LEASE £24.39pw

- Sleek, ultra low-profile design, no in-ground installation required
- Double master/slave hydraulic circuits for added safety
- "Magic Eye" photocell assures perfect synchronisation
- Includes 4 x Rubber Blocks

Boasting a 3500KG capacity, the VSX3500-LP full-height scissor provides a completely clear area for working between structures. The SureFast locking system allows you to position the lift at any height, rather than the normal but limited pre-set heights. A manual emergency lowering system in the event of a power outage and a neat, compact control console complete the high specification.

ecolift TP10 Lift

The big brother of the TP9. Designed in Europe with larger European vehicles in mind. Originally developed for heavy duty vehicles typical of the US market, this European version sits comfortably in the category of 'Super-Duty' vehicle lifts, being capable of handling large 4x4s and vans.

MOT Bay MTS Connected Upgrade Package

When moving premises, changing your company name or ownership of an existing MOT station the MOT bay equipment needs to be upgraded to MTS connected.

This can often involve the replacement of the brake tester, emissions tester and decelerometer. We have put together an integrated package that includes a brake tester, emissions tester and decelerometer that all work together with a shared cabinet and PC.

LET US HELP YOU GET CONNECTED

Dama Wheel Alignment 4T & 4.5T Scissor Lifts

A perfect option for a service or wheel alignment lift where space is restricted, this 4t capacity service and wheel alignment lift has rear slip plates, integral scissor lift and removable fillets to fit front turnplates.

One of the real advantages of this lift is the suitability to surface mounting, with a minimum height of 240mm and long lightweight run on ramps, it enables this lift to be used without excavation. An added benefit on the HDM4.5MSR is that it can also take a jacking beam as an option. (Not available on the HDM4.0MS)

Recessed 5t Wheel Alignment Long Platform Scissor Lift

A recessed 5t wheel alignment scissor with long 5100mm platforms is ideal for longer cars, vans & motorhomes. This lift has built in rear lockable slip plate recesses. The lift is equipped with locking to ensure it is level at all heights. Being recessed there is no difficulty getting any vehicle, no matter how low, onto the lift. Both versions have rails to carry a jacking beam as an option. The HDM5.0MSE has the additional benefit of an integral scissor lift to lift the vehicle wheel free once raised.

Dama Service & Wheel Alignment 4 Post Lifts

A superb range of 4 post lifts with capacities from 4.5t to 5.5t & platform lengths from 4.7m to 6m. These lifts are ideal for service work and wheel alignment on a varied range of cars, vans and 4x4's.

All versions come with removable plates to accommodate front turnplates and rear slip plates. The lifts also come with safety air locking, ensuring repeatable alignment results and a firm working platform.

Available in 230v and 400v versions and can be installed surface mounted or recessed.

Don't forget about adding a jacking beam

GIULIANO P43 WHEEL BALANCER WITH 3D AUTOMATIC DATA INPUT

All rim data is entered automatically via the Weight Placement Arm and SmartWidth™ technology, and a lazer directs the operator to the precise plane for weight placement, which can be done at 6 o'clock or 12 o'clock. LED illumination inside of the rim makes the working process even more convenient for the user. An electronic brake, incredibly quiet and fast operation, and handy integral storage makes the P43 worthy of the 'Premium Line' status.

- 3D Fully-Automatic Data Input using SmartWidth™
- Laser guidance for precise location of stick-on weights
- Electronic brake
- LED illumination of the inside rim working area
- Cycle time as low as 4.7 seconds
- Integral storage trays within chassis
- Unique multi-tier warranty up to 5 years

- Works with plastic caps and metal retaining rings
- Adjustable base fits various gripping arms
- Gripping arms can be positioned inside the ring
- Segmentable gripping surfaces suit most locking systems

£298.60
Part No: 61600000

NOX & PARTICULATE SENSOR THREAD REPAIR KIT

The Nox & Particulate Sensor Removal & Thread Repair Kit is designed to assist technicians in safely removing seized sensors and repairing damaged exhaust threads.

Sensor Removal

This kit includes specially designed M22mm and M24mm sockets with a cutout feature that allows the sensor cable to pass through, eliminating the need to cut the cable when reusing the sensor. These sockets can also be used to securely tighten the sensor upon refitting.

Thread Repair

In many cases, sensor removal results in stripped threads within the exhaust, preventing the installation of a new

sensor. Replacing an exhaust system can be costly and, depending on stock availability, could result in extended vehicle downtime.

The M20mm and M22mm thread repair tools in this kit enable technicians to restore damaged threads with ease.

The process involves:

Guided Cutting: A precision guide is inserted into the exhaust to ensure accurate thread removal while preventing swarf from entering the system.

Oversized Threading: A specialised cutter removes the damaged thread to a controlled depth.

Thread Insert Installation: A new thread insert is securely fitted, restoring the original thread size for sensor installation.

Kit Contents & Availability:

The kit is supplied with three thread inserts of each size (M20 & M22mm), with additional inserts available separately.

This professional-grade solution ensures efficient sensor removal and repair, preventing costly exhaust replacement and reducing vehicle downtime.

£729.00
Part No: 60525200

EXHAUST SENSOR & BRAKE LINE LOCKING WRENCH SET - 8-PIECE SLIDE-THROUGH DESIGN

This innovative 8-piece sensor wrench set is designed for modern exhaust temperature and differential pressure sensors featuring a 90° curved steel cable directly after the hex. On many vehicles this cable layout prevents the use of conventional sensor sockets or spanners, as the cable and connector obstruct access. This specialised set provides the correct solution for technicians working on modern emissions systems.

At the centre of the system is a durable 3/8" drive base that accepts interchangeable sensor wrench head inserts. The robust base prevents the wrench head from spreading under load, ensuring even pressure is applied to the

nut and allowing reliable torque transfer during removal or installation.

The modular design provides excellent access in confined engine bays where exhaust components and wiring limit working space. By selecting the correct head and combining it with the compact drive base, technicians can work safely in areas where standard tools cannot reach.

The set includes interchangeable heads in sizes 11, 12, 13, 14, 16, 17 and 19mm, covering common sensor sizes used on modern vehicles. It is suitable for exhaust temperature and differential pressure sensors with integrated 90° cable bends and can also be used

for loosening brake pipe unions and hydraulic connections.

Engineered for professional workshops, this tool set enables safe, controlled removal and installation of difficult-to-access sensors and fittings.

£329.00
Part No: 60525400

SUSPENSION ARM LEVER TOOL – COMPLETE WITH RATCHETING HANDLE (UNIVERSAL)

Designed for safe and efficient one-person use, this universal suspension arm lever tool allows technicians to quickly pull down or reposition lower suspension arms during repair and maintenance work. It removes the need for awkward manual levering and helps reduce the risk of damage to surrounding components.

The tool is suspended beneath the vehicle using a durable hook and chain system. Once positioned, the integrated ratcheting handle allows the suspension arm to be gradually lowered or raised in a controlled manner. This controlled movement greatly simplifies both disassembly and reassembly during suspension service work.

By allowing one technician to safely control the suspension arm, the tool improves efficiency in the workshop and eliminates the need for pry bars or additional assistance. The ratcheting mechanism provides smooth operation and precise control, helping to maintain correct positioning throughout the repair process.

Ideal for use when removing or refitting suspension components such as ball joints, wishbones and control arms, this tool ensures accurate alignment while reducing strain on the technician. Engineered for professional workshops, it provides a safer and more controlled solution for suspension servicing tasks.

£229.00
 Part No: 62016715

UNIVERSAL UNDER VEHICLE ENGINE & GEARBOX SUPPORT

This versatile support beam is designed to stabilise the engine or gearbox from beneath the vehicle using a secure hook and strap system. It provides a stable support point during major mechanical work, helping technicians safely hold components in position while repairs are carried out.

A front-mounted scissor jack allows precise and controlled height adjustment, enabling the technician to raise or lower the supported component as required. At the rear, adjustable stabilising legs can be set for both height and width, allowing the beam to adapt to a wide range of vehicle layouts and workshop situations.

The design allows the vehicle to be raised or lowered on a lift while the support beam remains in place, maintaining full accessibility during

tasks such as gearbox removal, engine mounting work or cambelt replacement. This makes it a practical one-person solution for supporting drivetrain components safely and efficiently.

If the vehicle subframe needs to be removed, the unit can also be suspended using support beam 61135905 (sold separately), providing additional flexibility for more complex repair operations. The universal design fits most vehicle types and is engineered for professional workshop use.

Specifications:

Max. carrying capacity: 250 kg
 Length: 1050 mm
 Height: 100 mm
 Max. lifting height (scissor jack): 260 mm
 Weight: 10 kg

UNIVERSAL BROKEN GLOW PLUG REMOVAL SET M8x1 M9x1 M10x1 M10x1.25

Professional kit for removing seized or broken glow plugs on-vehicle when the drive hex shears off, avoiding cylinder head removal.

Features:

- Removes broken glow plugs directly on the vehicle
- Suitable for M8x1, M9x1, M10x1 and M10x1.25 plugs
- Removes centre electrode and drills core
- Taps extractor thread and pulls plug body
- Cleans cylinder head thread and sealing bore

£1279.00
Part No: 90417800

UNIVERSAL GLOW PLUG TIP / HEATING ELEMENT REMOVAL SET M8x1, M9x1, M10x1 & M10x1.25

Universal kit for removing broken glow plug tips and heating elements on-vehicle, avoiding cylinder head removal during repair.

Features:

- Removes seized glow plug tips from cylinder head
- Suitable for M8x1, M9x1, M10x1 and M10x1.25 threads
- Extraction sizes: M2.5, M3 and M4
- Guide tube ensures centred drilling
- Includes carbon cleaning brushes and instructions

£749.00
Part No: 90417900

FORD TRANSIT 2.0 ECOBLUE TDCI (YNF6) 12T HYDRAULIC INJECTOR REMOVAL KIT FROM 2016

This specialist injector removal kit is designed for extracting seized injectors from Ford 2.0L EcoBlue TDCi engines using a powerful 12-ton hydraulic cylinder. The system is engineered for on-vehicle use, allowing technicians to remove injectors without removing the engine or cylinder head, significantly reducing labour time.

The kit features a two-stage extraction process. Stage one uses a force-limiting shear bolt designed to attempt injector removal without damaging the injector itself. If this is unsuccessful, stage two applies

the full 12 tons of hydraulic force to extract the injector. At this stage the injector will be dismantled and cannot be reused. Due to corrosion, injectors can sometimes break during removal, leaving the nozzle section lodged in the cylinder head. This set includes the necessary tools to remove the remaining nozzle section, ensuring the repair can be completed without further engine dismantling.

Compatible with Ford 2.0L EcoBlue engines installed from 2016 in the Ford Transit and from 2018 in models including Galaxy, S-Max, Mondeo, Focus and C-Max.

Features

- Designed for on-vehicle injector removal
- Suitable for FWD and RWD Transit layouts
- No need to remove engine or cylinder head
- Two-stage hydraulic extraction system
- Nozzle cap removal set included
- Expandable for additional vehicle applications
- All spare parts available
- Supplied with detailed instructions

Note: Hydraulic hand pump required.
Recommended pump: **80255500**. Stage 2-only kit also available: **60385535**.

£1789.00
Part No: 60385525

INJECTOR REMOVAL KIT 20-TON PSA 2.0L / 2.2L (DW10 / DW12) WITH CYLINDER

Hydraulic injector removal kit for PSA 2.0L and 2.2L DW10/DW12 engines, delivering controlled 20T extraction of seized Delphi injectors on-vehicle.

Features:

- 20T hydraulic cylinder for powerful injector extraction
- Designed for Delphi injectors in PSA DW10 and DW12 engines
- Self-levelling pull plate keeps force aligned vertically
- Removes injectors on-vehicle without engine strip-down
- Controlled pull reduces risk of injector or head damage

£1599.00
Part No: 60385625

HYDRAULIC HAND OPERATED PUMP - COMPATIBLE WITH 12-TON & 20-TON INJECTOR REMOVAL CYLINDERS

Hydraulic hand pump designed for use with 12T and 20T injector extraction cylinders, delivering controlled pressure for reliable removal.

Features:

- Provides controlled hydraulic pressure for injector removal
- Compatible with 12T and 20T hydraulic cylinders
- Supplied with durable 2.2m hydraulic hose
- Secure screw-type connection for leak-free operation
- Includes pump, hose and 3/8" NPT hydraulic adaptor

£596.50
Part No: 80255500

MINI DIGITAL TORQUE WRENCH 1/4" (1) 4 - 20 Nm

This compact digital torque wrench is designed for accurate low-torque applications where precision fastening is essential. Its slim and lightweight design makes it ideal for working in confined or difficult-to-access areas commonly found in modern vehicles and mechanical assemblies.

The fine-toothed ratchet mechanism provides smooth bidirectional operation, allowing the tool to be used with both sockets and bit adapters. This ensures controlled and consistent tightening when working on delicate components or fasteners that require precise torque settings.

A clear digital display provides easy-to-read torque values with fine resolution, helping technicians apply accurate torque during assembly or service work. The tool is particularly useful when working on sensitive components where over-tightening could cause damage.

Engineered for professional use, this digital torque wrench offers reliable precision, improved accessibility and controlled fastening for a wide range of workshop and mechanical applications.

Features

- Digital torque measurement for controlled low-torque fastening
- Fine-toothed ratchet mechanism for smooth bidirectional operation
- Compact design for confined and hard-to-reach areas
- Clear digital display with precise resolution

Technical Specifications

- Drive size: 1/4"
- Torque measuring range: 1-20 Nm
- Display resolution: 0.1 Nm
- Measurement accuracy: ±2.5%
- Overall length: 207 mm

£198.00
Part No: 41500020

3/8" DIGITAL FLEXI TORQUE WRENCH

A high-accuracy tool for controlled bolting, ideal for modern combustion engines and critical fastening tasks. It ensures precise torque and angle measurements, improving repeatability, traceability, and compliance with engineering standards.

Key Features:

- Multi-unit torque and angle measurement: Nm, ft-lb, in-lb, kg-cm, °
- Stores 9 programmable setpoints
- Records 50 torque/angle triggers for quality control
- ±2% display deviation for high precision

Specifications:

- Drive: 3/8"
- Torque: 6.8-135 Nm / 5-99.5 ft-lb / 60-1195 in-lb / 69-1378 kg-cm
- Angle range: 1°-360°
- Tolerance: 0.1 Nm / ft-lb, 1 in-lb / kg-cm
- Length: 425mm

£389.90
Part No: 41501135

1/2" DIGITAL FLEXI TORQUE WRENCH

Designed for high-accuracy torque and angle measurement, ideal for torque-angle controlled bolting, common in modern combustion engines.

Key Features:

- Measures torque and rotation angle
- Units: Nm, ft-lb, in-lb, kg-cm, °
- 9 Programmable setpoints
- Stores 50 torque/angle triggers

Specifications:

- Drive: 1/2" square
- Torque: 17-340 Nm / 12.5-250 ft-lb / 150-3009 in-lb / 173-3469 kg-cm
- Angle range: 1°-360°
- Accuracy: ±2% torque / ±1° angle
- Resolution: 0.1 Nm / ft-lb, 1 in-lb / kg-cm
- Length: 655 mm

£489.40
Part No: 41501340

DIGITAL TORQUE WRENCH 3/4 INCH WITH ANGLE MEASUREMENT

This digital 3/4" torque wrench is designed for high-torque applications and torque-angle tightening procedures used in modern engine assembly and repair. It supports both torque and angle measurement, making it suitable for controlled fastening and verification tasks.

Engineered for professional workshop use, the wrench allows technicians to apply accurate torque values and monitor angle rotation during critical fastening operations.

Features

- Supports torque and torque-angle tightening
- Designed for high-torque applications
- Nine preset torque and torque-angle target values
- Memory for up to 50 trigger events
- Multiple measurement units selectable

Technical Specifications

- Drive size: 3/4"
- Torque range: 42.5-850 Nm
- Torque angle range: 1°-360°
- Units: Nm, ft lb, in lb, kg cm and angle
- Display resolution: 0.1 Nm, 0.1 ft lb, 1 in lb, 1 kg cm
- Measurement deviation: ±2.5%
- Overall length: 1220 mm

DEMONSTRATIONS AVAILABLE UPON REQUEST

Draper Expert Petrol Pressure Washer 6.5HP

Ideal for rapid cleaning of vehicles, caravans, farm equipment, boats and driveways where mains power is unavailable.

- Ideal where no mains power is available
- Euro 5 compliant 4-stroke petrol engine
- 8m Heavy duty hose included
- High-pressure metal trigger gun
- Detergent bottle supplied
- 1/2" BSP plastic hose adaptor
- Five interchangeable nozzles
- Fuel funnel with hose included

£329.95

Stock Code. 83818

230V Pressure Washer 2500W 195bar

Trade-grade pressure washer with induction motor, durable steel-armoured hose, and patio cleaner for powerful, efficient site cleaning.

- Brushless induction motor
- 8m Steel-armoured hose
- Stainless steel lance
- Auto control with total stop device
- Integrated detergent bottle
- Fixed brush included
- Six quick-fit nozzles (including turbo nozzle)
- Cleaning pin and inlet filter supplied

£239.95

Stock Code. 98679

Retractable Air Hose Reel 30m 10mm ID

Durable auto-rewind air hose reel with hybrid hose, 180° swivel mount and UV-resistant case for convenient workshop use.

- Smooth auto-rewind with integrated hose guide
- Hose diameter 10mm/3/8"
- Free-stop mechanism at any position
- 180° Swivel mounting bracket
- Impact and UV-resistant polypropylene case
- Durable hybrid hose
- Resistant to chemicals and workshop use

£154.95

Stock Code. 29676

Schumacher® Propulstation 12V Start Booster and Docking Station, 1200CA

Professional jump starter with docking station for automatic charging, high capacity battery and durable case for workshop or recovery use.

- Docking station for vehicle or wall mounting
- Robust impact-resistant shell case
- LED display for voltage, charge level and dock status
- Long flexible double-insulated cables
- High capacity battery for high amperage output
- Magnetic connector ensures optimal charging
- Fully insulated clamps
- External 500A fuse access

£739.95

Stock Code. 13611

12/24V Jump Starter 3000/1500 Peak Amps

Versatile 12V/24V jump starter for vehicles and equipment, featuring safety protection, LED indicators and portable power capability.

- Suitable for motorbikes, cars, vans, LCVs, tractors, trucks and boats
- Easy to read LED indicators
- Two 12V DC power sockets
- Reverse polarity alarm
- Automatic circuit overload protection
- Portable with carry handle
- Onboard clamp storage
- Supplied with 230V mains charger

£259.95

Stock Code. 29755

Suction Oil Drainer and Vacuum, 110L

Air-operated waste oil drainer with 110L tank, adjustable drain pan and vacuum system for efficient workshop oil recovery.

- Drip tray and vacuum attachment for spillages
- 110L Steel collection tank
- Height adjustable drain pan
- Fitted with safety valve
- 1/4" BSP coupler included
- Heavy duty castors for mobility
- Pull handle for easy manoeuvrability

£329.95

Stock Code. 13597

BUNKER 14 Drawer Multi-Functional Workbench Roller Tool Cabinet 48" Green

48" Multi functional workbench cabinet with 14 drawers, hardwood worktop and integrated storage for organised workshop efficiency.

- 12-Month warranty (extendable to 10 years on registration)
- Soft-close drawers with protective foam liners
- Premium hardwood worktop
- Double-sided storage cupboard with shelf
- Pegboards with paper towel holder
- Four castor wheels
- Integral locking system with keys

£1,349.95

Stock Code. 08269
5YR LEASE £7.17pw

230V 100L Belt-Driven Air Compressor, 2.2kW/3HP

Belt-driven air compressor designed for workshop use, featuring thermal overload protection, pressure regulator, gauge and twin quick couplings.

- Two quick Euro coupling outlets
- Thermal motor overload protection
- On/off pressure switch
- Pressure regulator and gauge
- Belt-driven compressor design
- Wheels and transport handle for mobility
- Air displacement 11.7cfm/330L/min
- Input current 13amp

£459.95

Stock Code. 31254

Draper Expert Vertical Transmission Jack 600kg

Hydraulic transmission jack with telescopic ram, quick-lift twin pistons and foot pedal control for safe gearbox handling in workshops.

- Hydraulic vertical transmission jack with telescopic ram
- Twin piston quick-lift mechanism
- Safety overload valve for protection
- Foot pedal for hands free operation
- Hardwearing nylon wheels protect floors
- Side handles for easier positioning
- Reversible saddle for gearboxes/components

£279.95

Stock Code. 70668

Aluminium and Steel Racing Trolley Jack, 2.5 Tonne

2.5T Aluminium and steel trolley jack with quick-lift twin pistons, safety valves and rubber saddle for safe vehicle lifting.

- Twin-piston quick-lift – six pumps to maximum height
- Lifting range: 100–465mm
- Overall weight 25.9kg
- Rubber saddle pad protects vehicle underside
- EVA foam handle cover prevents panel damage
- Knurled handle for improved grip
- Twin safety overload valves
- Rear swivelling castors for manoeuvrability

£169.95

Stock Code. 13929

Air Bottle Jack, 20 Tonne

20T Air bottle jack with pneumatic and manual operation, adjustable screw extension and safety valve for heavy duty lifting.

- Lifting range: 245–474mm
- Pneumatic lifting via air compressor
- Manual pump with two piece handle
- Welded base and reservoir for strength
- Leak minimising design
- Integrated carry handle for transport and storage

£199.95

FROM COMPACT ACCESS TO MAXIMUM TORQUE, THE **E-Beast** RANGE DELIVERS CONSISTENT PERFORMANCE FOR PROFESSIONAL USE. HIGH-OUTPUT BRUSHLESS MOTORS, DURABLE HOUSINGS AND BALANCED DESIGN ENSURE RELIABLE POWER WHERE IT MATTERS MOST.

ALL SETS SUPPLIED COMPLETE AND READY FOR DAILY WORKSHOP USE.

EACH SET INCLUDES TWO BATTERIES, CHARGER, EU/UK ADAPTOR AND PROTECTIVE CARRY CASE.*

*7142-WW includes 1 x 20V battery, charger, EU/UK adaptor, protective carry case, anti-vibration auxiliary handle and adjustable disc guard. Additional batteries available separately.

SPRING INTO ACTION WITH OUR LATEST INNOVATIONS!

SIP have got you covered throughout spring & summer 2026, with comprehensive Climate Control, Workshop Equipment and Pressure Washer ranges.

Amongst our latest seasonal products are the **NEW TEMPEST®** Hot Water & Wall-Mountable Pressure Washers, ideal for the spring cleaning season.

To view the full SIP range, please visit: www.sip-group.com

SIP PRESSURE WASHING

ITEM NO: 08957

SIP TEMPEST® PH720/150 HOT WATER ELECTRIC PRESSURE WASHER

With a diesel-fired boiler that offers a hot water output temperature of up to 98°C, plus a mobile and easily manoeuvrable design, the PH720/150 provides optimised cleaning of stubborn and deep-seated grime, dirt, moss or organic matter in commercial and industrial environments.

- 3.1kW (4.1hp) 4-pole brushless induction motor and robust brass-headed Triplex pump
- 720L/hr max. flow rate with 10m high pressure hose and 4 piece nozzle set
- 2175psi (150bar) maximum pressure
- Diesel-fired boiler with 20L fuel tank for adjustable hot water output from 30 to 98°C
- Wheel-mounted design with large handle for easy movement over uneven surfaces
- Robust bodywork cover with integrated control panel and storage solutions

EASY-TO-USE CONTROL PANEL FOR BOTH HOT & COLD FUNCTIONS

SIDE HANGING HOOK FOR CONVENIENT WATER HOSE STORAGE

OFFER PRICE
£1999.99

VEHICLES & FLEETS:
Car detailing and valeting, vans, LGVs/HGVs, agricultural or plant machinery, plus garages, workshops and storage spaces.

COMMERCIAL:
Perfect for cleaning gum, graffiti and more in public spaces and facilities management.

WAREHOUSE & INDUSTRY:
Machine shops, factories and workspaces where oil, grime, grease and lubricants need to be routinely removed.

SANITISATION:
Ideal for hygiene-conscious areas with food waste of organic residues, food processing plants, cold storage or commercial kitchens.

SIP CLIMATE CONTROL

ITEM NO: 05647

SIP 4-in-1 AIR CONDITIONER

Designed to effectively circulate cool and hot air to maintain a consistent temperature in a variety of indoor spaces including homes, offices and workshops.

Featuring four low noise operating modes, the 4-in-1 Air Conditioner can function as an air conditioner, dehumidifier, cooling fan and heater offering year-round application use.

- **COOL MODE** offers an adjustable target temperature down to 15°C
- **HEATING MODE** delivers an adjustable output of 8,000BTU/hr for max. temp of 31°C
- **DEHUMIDIFIER MODE** max. capacity of 1.2L/hr
- **FAN MODE** operates as a cooling fan without engaging the climate control functions
- Remote control allows the air conditioner to be operated at distance for added user convenience

EASY-TO-USE ELECTRONIC TOUCH PAD CONTROL PANEL & REMOTE CONTROL

FENCE, WALL OR FREE STANDING OPTION

ITEM NO: 05484

SIP DD 3HP 100LTR LOW-NOISE VERTICAL COMPRESSOR

- 13.6CFM piston displacement and 9CFM Free Air Delivery (FAD)
- Low noise twin-cylinder motor pump unit operates **at just 67dB**
- Vertical space-saving design is ideal for work areas with restricted floor space
- Latest generation oil-free 3hp (2.2kW) 2-pole motor for reliable performance
- 100L receiver maintains a consistent air supply of up to 8bar pressure
- Tank and working pressure gauges with regulator and quick-release connectors

OFFER PRICE

£399.99

The World's Largest Manufacturer of Air Compressors

WORKSHOP SERIES Belt Driven Lubricated

- Low speed professional and heavy duty workshop compressors.
- Single & 3 Phase Models
- 230 and 400 Volts
- Up to 11 Bar Pressure
- 3-10HP
- 150, 200 & 270 Litre Receivers
- Tandem models available
- Higher Capacities
- Reduced RPM
- 2 year warranty
- Star Delta Starting on 10 HP Model

NB2800B/3M/150 TECH-PRO

Part No. S-28HA504FPS135
Belt Drive, 2.2kW / 3HP, 355 lt/min / 12.5 cfm (disp.), 10 bar / 145 psi, 150 Ltr, 230v-13a supply, Lubricated

Offer Price: **£643.00**

NB2800B/3M/200 TECH-PRO

Part No. S-28LA504FPS136
Belt drive, 2.2kW / 3HP, 355 lt/min / 12.5 cfm (disp.), 10 bar / 145 psi, 200 Ltr, 230v-13a supply, Lubricated

Offer Price: **£668.00**

B3800B-PRO/200 FT3

Part No. S-36LN541FPS143
Belt drive, 2.2kW / 3HP, 395 lt/min / 13.9 cfm (disp.), 10 bar / 145 psi, 200 Ltr, 400v, Lubricated

Offer Price: **£703.00**

NB7/270 FT7

Part No. S-N7NN801FPS018
Belt drive, 5.5kW / 7.5HP, 840 lt/min / 29.7 cfm (disp.), 10 bar / 145 Psi, 270 Ltr, 400v, Lubricated

Offer Price: **£1303.00**

5YR LEASE £6.92pw

MICRO SERIES Rotary Screw Compressors

- User Friendly Belt Driven Screw Compressors from 2.2 to 5.5 kW
- 12,000 hour Poly-V Belts
- Compact design
- Higher outputs
- Floor Mounted, Tank Mounted & Tank Mounted with Dryer options
- Star Delta Starting (SDS) from 5.5 kW
- Electronic Controller from 5.5 kW
- 8 & 10 bar as Standard
- 13 Bar available on SDS Models
- Single Phase Model Available

Micro SE 2.210M-200

Part No. F-V77JT60FNM501
Belt drive, 2.2kW / 3HP, 8.5 cfm (FAD), 10 bar / 145 psi, 200 Ltr. 230v-16a supply, Lubricated

Offer Price: **£2,911.00**

5YR LEASE £15.45pw

Micro SE 410-200

Part No. F-V77JP72FNM701
Belt drive, 4kW / 5.5HP, 17.1 cfm (FAD), 10 bar / 145 psi, 200 Ltr. 400v-Lubricated

Offer Price: **£3,063.00**

5YR LEASE £16.26pw

Micro SE 2.210M-200-ES

Part No. F-V77JT60FNM601
Belt drive, 2.2kW / 3HP, 8.5 cfm (FAD), 10 bar / 145 psi, 200 Ltr. 230v-Lubricated, with refrigerated dryer

Offer Price: **£4,213.00**

5YR LEASE £22.36pw

Micro SE 410-200-ES

Part No. F-V77JP72FNM801
Belt drive, 4kW / 5.5HP, 17.1 cfm (FAD), 10 bar / 145 psi, 200 Ltr. 400v-Lubricated, with refrigerated dryer

Offer Price: **£3,953.00**

5YR LEASE £20.98pw

WHEEL HUB AND BEARING MASTER KIT

- Front and rear drive flange and wheel bearing removal.
- Front wheel drive applications include: Chrysler, Ford, Honda, Hyundai, Infiniti, Kia, Lexus, Mazda, Nissan, Toyota and VAG.
- Rear wheel drive applications include: BMW, Mercedes-Benz and Porsche.
- Not suitable for fitting GEN2 bearing assemblies.
- The 7879 utilises a mechanical force screw - always apply molybdenum disulphide grease before use.

PART NO.
7879

OUR PRICE
£349.95

REAR WHEEL BEARING REMOVAL & INSERTION KIT CITROËN, PEUGEOT, VAUXHALL VANS

- GEN2 Rear wheel bearing replacement kit.
- Compatible with Citroën, Peugeot, Toyota, and Vauxhall/Opel models from 2016 onward.
- Removes and fits bearings directly on the outer race, suitable for bearings (#9819074780 or SU001-A6528) without a central hole.
- Made in Sheffield, EU Registered Design.
- Always lubricate the force screw with molybdenum disulphide grease.

PART NO.
8356

OUR PRICE
£499.95

TURBO SYSTEM TESTER KIT

- Adaptors: Includes twelve stepped adaptors for pipe sizes ranging from 31mm to 90mm.
- Features: Equipped with a pressure gauge, shut-off valve, and regulator to prevent over-pressurisation.
- Uses: Ideal for pressure testing turbo pipes, intercoolers, and cooling system pipes to detect leaks.
- Operation: Uses workshop compressed air; always pre-set the regulator to low before use.
- Applications: Suitable for cars, LCV, HGV, and marine systems.

PART NO.
7981

OUR PRICE
£109.95

ASSORTED FUEL & PIPE CONNECTOR KIT WITH INSERTION TOOL

- Fuel Line Connectors: 10 Straight and 90° for nylon and rubber hoses, 5 male connectors, 2 double-ended connectors.
- Pipes and Hoses: 3 Nylon pipes, 2 rubber hoses, twin ear O-clips.
- Specifications: Operating pressures 5-7 bar, Temperature range -40°C to 120°C.
- Tools: Pipe connector insertion tool (Part No. 6933), stainless steel soft pipe cutter.
- Maintenance: Use petroleum jelly for assembly, clean after use.

PART NO.
37199

OUR PRICE
£269.95

GEN2 WHEEL BEARING KIT VAG MASTER

- Applications: Audi A2; Seat Cordoba & Ibiza; Skoda Fabia & Roomster; Volkswagen Fox, Lupo, Multivan, Polo, Touareg & Transporter.
- Use: For VAG models wheel hub and bearing installation/removal. Features a redesigned extraction adaptor (572-6).
- Wheel Bearing Sizes: Suitable for 62, 66, 72, and 85mm diameters.
- Spares Available: Force Nut (0108), Force Screw (0454), Pins (0622), Thrust Bearing (0662).
- Maintenance Tip: Lubricate threaded bar and thrust bearing with molybdenum disulphide grease before use.

PART NO.
5587

OUR PRICE
£599.95

REAR WHEEL BEARING SERVICE KIT MERCEDES VIANO/VITO VANS

- Applications: Mercedes-Benz chassis type W639 models (Viano, Vito Mini Bus, Vito Mixto, Vito Van) from 2003.
- Features: Includes a special 'C' plate for safe removal of inner bearing rings; Laser 8446 design avoids removing ABS sensor.
- Compatibility: Works with OEM bearings 639 981 04 27, A 639 981 04 27, 713667980, and 6393340006.
- Maintenance: Lubricate the threaded bar and thrust bearing with molybdenum disulphide grease before use.
- Made in Sheffield, EU Registered Design.

PART NO.
8446

OUR PRICE
£449.95

ADBLUE SYSTEM PRESSURE TEST KIT

- Product: SCR Selective Catalytic Reduction system pressure test kit.
- Components: Includes two 300mm clear braided connection pipes with parallel and 90-degree 6.3mm snap connectors for restricted area access and fluid inspection.
- Usage: Follow OEM vehicle data and instructions for SCR system testing.
- Compatibility: Designed for use with OEM diagnostic software and protocols.
- Maintenance: Clean gauge and pipe assembly with clean water after use to prevent urea crystal buildup.

PART NO.
8060

OUR PRICE
£99.95

FUEL LINE DISCONNECT TOOL SET

- Applications: Includes major brands like Alfa Romeo, Audi, BMW, Ford, Opel, Peugeot, and Volkswagen.
- OEM Numbers: VAG 6XO 201 511, PSA 1567.89/88/C4, Ford 310-137, Opel 818.568, Vauxhall 25313359, MINI 13 O 250.
- Tools: Features heater hose removal tools and quick connect tool for dual button connectors.
- Packaging: Comes in a compact EVA foam tray for efficient storage.

PART NO.
8615

£151.96

Belt-In-Oil Engine Setting/Locking Kit - FORD Diesel 2.0 TDCi EcoBlue (Panther)

For belt-in-oil removal and installation on 2.0TDCi EcoBlue 'Panther' Diesel engines installed in Ford cars and LCVs.

Models: Edge, Focus ('19), Galaxy ('15), Mondeo ('15), Ranger ('12), S-MAX ('15), Tourneo Custom ('12), Transit ('14), Transit Custom ('12)

OE Refs: 303-1637, 303-1643, 303-1650

AST6185

£41.96

Vibration Damper/Crankshaft Pulley Remover - Ford 2.0 EcoBlue

For efficient removal of the vibration damper/pulley installed on the Ford 2.0 EcoBlue (Panther) Diesel engine. The pulley requires removal to gain access to the timing belt cover.

Models: Edge, Focus, Focus Active, Galaxy, Mondeo, S-Max, Tourneo Custom, Transit, Transit Custom

OE Refs: 204-158-01, 205-295

**AST6245****£38.36****Vibration Damper/Crankshaft Pulley Removal Tool for FORD Ranger**

Suitable for Ford Ranger and Transit MHEV (Mild Hybrid) models fitted with the 2.0 EcoBlue Panther Engine. Ensures simple and safe removal of the vibration damper/crankshaft pulley and saves time during disassembly.

Models: Ranger, Transit (MHEV)

OE Ref: 303-1657

AST5286**£71.96****Diesel 2.0 TDCi EcoBlue Engine H.P. Fuel Pump Removal & Installation Tool - Ford**

The H.P. Fuel Pump removal and installation set contains the tooling required to remove / install the high-pressure diesel fuel pump on all 2.0TDCi 'Panther' EcoBlue engines.

Models: Edge, Focus, Galaxy, Kuga ('19), Mondeo, Ranger, S-MAX, Tourneo Custom, Transit, Transit Custom

OE Refs: 303-1635

OR CALL YOUR LOCAL BRANCH TO ORDER TODAY

AST6225**£199.96****Diesel Injector Removal Tool - 2.0TDCi Ford EcoBlue**

Designed to remove Ford EcoBlue diesel injectors intact, without breaking the fuel return connector or electronic Piezo head. Suitable for mildly seized injectors only, as specified in the OE General Service Bulletin. Maximum torque 25Nm (Ford GSB FG5B-7024).

Models: Edge, Focus ('19), Galaxy ('15), Kuga ('19), Ranger, S-MAX ('15), Tourneo Custom, Transit ('14), Transit Custom

OE Refs: 303-1706

AST6235**£99.98****Cylinder Head Bolt Removal / Installation Kit - Ford EcoBlue 2.0 TDCi (2016-)**

Includes the bracketry and hexagonal socket required to remove and install hexagonal form head bolts fitted to 2.0 TDCi EcoBlue (Panther) engines installed in Ford models from 2016 onwards.

Models: Edge, Focus, Focus Active, Galaxy, Mondeo, Ranger, S-MAX, Tourneo Custom, Transit, Transit Custom

1000 AMP ULTRASAFE LITHIUM JUMP STARTER

- Lithium starter: 1,000 Amps for up to 20 jumps per charge.
- Safe & foolproof: Spark-proof with reverse polarity protection.
- 100 lumen LED: 7 modes including SOS & strobe.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 4 phone charges.
- For petrol engines up to 6L and diesel up to 3L: Cars, boats, mowers, etc.

£99.95

NOCO Part No. GB40

2000 AMP ULTRASAFE LITHIUM JUMP STARTER

- Lithium starter: 2,000 Amps, 40 jumps per charge.
- Safe design: Spark-proof, reverse polarity protection.
- 400 lumen LED: 7 modes, including SOS.
- Charge devices: Up to 6 phone charges.
- Powers 12V devices: Inflators, inverters, etc.
- For petrol engines up to 8L & diesel up to 6L: Cars, SUVs, trucks, boats, RVs.

£199.95

NOCO Part No. GB70

PRO 3000 AMP LITHIUM JUMP STARTER

- Powerful lithium starter: 3,000 Amps for up to 80 jumps per charge.
- Safe & foolproof: Spark-proof and reverse polarity protected.
- 500 lumen LED light: 7 modes including SOS & strobe.
- Powers 12V devices: Tyre inflators, inverters, etc.
- Charges devices on-the-go: Smartphones, tablets, e-watches - up to 6 phone charges.
- Suitable for petrol engines up to 9L and diesel up to 7L: Cars, SUVs, trucks, boats, RVs.

£269.95

NOCO Part No. GB150

BOOST X 12V 4250 AMP JUMP STARTER

- Extreme 4250 Amp jump starter for powerful engine starts; part of the all-new Extreme Series.
- Fast recharges with USB-C technology - full charge in 2.7 hours or 5 minutes to jump start.
- 60-watt USB-C power bank for charging phones, laptops, and more.
- Enhanced UltraSafe technology with improved thermal efficiency and power management.
- Versatile for all vehicle types up to 10L petrol and 8L diesel engines.

£339.95

NOCO Part No. GBX155

5-AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- GENIUS5: More compact and powerful than G3500.
- Versatile for 6V/12V batteries, including lithium-ion.
- Precision charging with ambient temperature sensing.
- Charges batteries from 1-volt; Force Mode for zero volts.
- Easy setup and automatic operation.
- Restores and extends battery life.
- Compatible with a wide array of vehicles.

£84.95

NOCO Part No. GENIUS5

10 AMP BATTERY CHARGER, BATTERY MAINTAINER, AND BATTERY DESULFATOR

- For 6V & 12V lead-acid batteries, including flooded, gel, AGM, maintenance-free and lithium-ion.
- Integrated sensor detects the ambient temperature and alters the charge to eliminate over and under-charging.
- Charges batteries as low as 1 volt. New Force Mode allows manual charging of dead batteries down to 0 volts.
- Detects sulfation and acid stratification and restores performance for stronger starts and extends battery life.

£124.95

NOCO Part No. GENIUS10

M18 FUEL™ 1/2" HIGH TORQUE IMPACT WRENCH HUGE POWER, COMPACT SIZE

- Great power density: the M18 FUEL™ high torque impact wrench delivers 1491 Nm fastening torque and 2034 Nm of nut-busting torque in a compact size of 193 mm, which gives more access in tight spaces
- 2000 RPMs of no load speed to perform your task 35% faster than with the previous gen
- Our battery isolation system provides a secure battery connection and controls vibration transmitted to the pack
- Robust gearcase for more durability
- Tri-LEDs deliver high-definition lighting to increase workspace visibility
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Mode 4 bolt removal, provides maximum nut-busting torque then shifts to 750 rpm for outstanding control when removing fasteners
- The DNA of our FUEL™ platform redefines the balance of cordless technologies. MILWAUKEE®'s POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ electronic intelligence delivering outstanding power, run time and durability
- Flexible battery system: works with all MILWAUKEE® M18™ batteries

NEW! LATEST GENERATION 1/2" IMPACT GUN

MILWAUKEE M12 STUBBY 3/8" IMPACT GUN WITH 1X 6 AMP & 1X 2 AMP BATTERIES

- More power, more compact, more control
- Up to 339 Nm of maximum torque
- 3/8" Anvil with friction ring for quick and easy socket changes
- Brushless POWERSTATE™ motor delivers more power in a more compact size
- REDLINK PLUS™ Intelligence system delivers an advanced digital overload protection for tool and battery, and uniquely enhances the tool performance
- REDLITHIUM™-ION battery pack provides superior pack construction, electronics and fade-free performance to deliver more run time and more work over pack life
- Individual battery cell monitoring optimises tool run time
- Better access in tight spaces with an overall length of only 121.9 mm
- 4-Mode DRIVE CONTROL with auto-shut off mode, offers the user precise control
- Bright LED workspace illumination
- Includes: 1x M12 B6, 1x M12 B2 Battery packs, C12 C Charger, HD Box

MWM12FIW38-622X
£199.95*

M12 FUEL™ 3/8" STUBBY IMPACT WRENCH WITH 2X 5 AMP HIGH OUTPUT BATTERIES

- Best in class power: 542 Nm of fastening and 745 Nm of nut-busting torque to tackle most common applications
- A weight of 1 kg without battery and a length of 122 mm means better access to tight spaces and less user fatigue
- 3,000 RPMs for exceptional application speed
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Trigger mode selection for easy one hand selection of speed settings
- Tri-LEDs for shadowless work area illumination
- The DNA of our FUEL™ platform redefines the balance of cordless technologies. MILWAUKEE®'s POWERSTATE™ brushless motor, REDLITHIUM™ battery pack and REDLINK PLUS™ electronic intelligence delivering outstanding power, run time and durability
- Works with all MILWAUKEE® M12™ batteries, max torque only achieved using 5Ah high output batteries
- Includes: 2x 5Ah High Output Batteries, Charger and HD Case
